Kimpton Industrial Park BID - Vote Yes - Don't Risk It

Introduction

In 2009 Kimpton Industrial Park businesses voted to become one of the early industrial BIDs in the UK. The BID has enabled us to ensure the area is now free of major crime, has a strong voice to lobby the Council and other bodies and has practical coordinated services to support our businesses.

It is crucial that we now maintain and build on the improvements made to date to ensure a prosperous future for businesses in the BID. To enable us to continue our work we are seeking to renew the BID. To do this we need businesses in the area to back BID2, if not BID services will cease and all that has been achieved to date will be lost, along with the potential for further improvements for businesses.

Kimpton Industrial Park BID - Vote Yes - Don't Risk It

Introduction

We have been delighted with the positive response we have received from businesses we have spoken to about BID2 to date and these are a few of the comments we have had from our members:

"It is really easy for people to forget how bad the area was before the security patrols and CCTV cameras came in. We have not had any major crime for the last four years thanks to the BID - I will definitely be voting yes in November 2013" - Paul Williamson, Managing Director, Designplan

"I am positive the next round of initiatives will further enhance our trading environment" - Stephen Capel, Managing Director, Point Source Productions

We hope that you agree with these comments and support BID2. We would be very happy to discuss any aspect of these proposals with you, so please do not hesitate to contact us.
